BRIEF ABSTRACT OF LETTER.

forwards for the orders of Govt a Statement received from the Dy Comr, Mysore District, showing the particulars of Gomal Survey no: 104 in the Kannali village, Mandya Taluk, ~~recommended for the Dy Comrs Mysore District~~, proposed to be granted for wet cultivation, and recommends that the Dy Comrs proposal may be sanctioned.

NOTES AND ORDERS.

The land proposed to be granted for wet cultivation is 167 acres and 12 guntas out of Gomal S. no: 104 of the Kannali village, Mandya Taluk, under the Nala of the Sulekere tank. It is reported that it contains 50 date trees fit for ~~tapping~~ tapping, 200 immature ones and 3000 young

trees licensed for the following shops in Mandya Taluk

Number of trees licensed							
99-900	900-901	901-02	902-03	903-04	Total	Average	
20	40	30	50	30	231	38	
202	131	20	59	72	622	104	
168	299	110	140	67	1044	174	
28	40	120	102	37	327	54.	
418	510	280	351	206	2224	370	✓

From these figures Government will see that very near the amount of land assessment is now being obtained on an average from the grove on these lands and from the shops served by the grove. If the figures of 1903-04 are taken, the income covers both the Estimated Land Revenue at about five Rupees per acre and the interest the Malikí amount that may be realized. It is stated that

land on which the trees in question depend the papers show that there are only eight mature trees on the large survey No. There does not then seem to be any necessary connection between the trees on this land and the figures relied upon by the Excise Commissioner. The question is whether the grant of this land for cultivation is calculated to operate prejudicially to the interests of Govt in the Excise Dept. I should like to see the land myself before giving my opinion on this important question. The interests involved are large and a personal inspection is desirable, before 10th Feb 1905 reading which

Deputy Commissioners
Office Mysore
Dated 3rd May 1904

To

J. Ananda Rao Esquire B.A.
Revenue Commissioner
Mysore

Sir,

I have the honor to submit herewith for orders the Vernacular Correspondence (with formal statement) ending with the Excise Commissioners' yadi No. 2086 dated the 26th February 1904 regarding the grant for cultivation of the formal Survey no 104 in the Kannali village of the Mandya taluk.

2 The land in question is situated below the Soolekéré tank and is fit for wet cultivation. As there are a number of

50 trees for Taxation
200 " immature
3000 " plants

of Toddy trees on the land as per detail, given in the margin, the Excise Commissioner's opinion was sought for. He is of opinion that as the land in question is included in the new list of Toddy groves, it is desirable to preserve it for the Excise Department.

3. Bearing in mind the fact that the sale of the land would fetch nearly Rs 17000, even if calculated at an average of 100 Rs per acre, and that the annual revenue on these lands would amount to nearly 800 Rs I am of opinion that the interests both of the Government and of the agricultural population would

Would be better devoted by granting the land for cultivation. I may here add that Mr. Rao Bahadur C. Muddaiah the then Deputy Commissioner had formed the same opinion in the matter (Vide his Yadi of 2nd April 98 to the Sub Division Officer From Chickballs.

I have the honor to be
Sir
Your most obedient Servt.

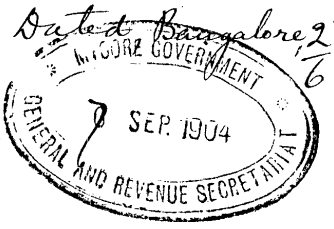
(927) Excise Commissioner's Office

No. 1843/5-7 Rev. Dated Bangalore 2nd September 1904



From

P. N. Purniaiya Esquire B. A
Excise Commissioner
in Mysore

To

B. K. Venkatavarada Iyengar Esquire
Secretary to the Government
of His Highness the Maharaja
of Mysore, Bangalore.

Sir,

With reference to your docket No. R 1529-4-4/1904-05 dated 19th ultimo, I have the honor to state that no date trees are reported to have been tapped in Survey No. 104 of Kannali village Mandya Taluk between the years 1898-99 to 1903-04.

2 I do not know if I am permitted to make any additional observation beyond reporting the number of trees tapped on this land. But I should submit for serious consideration the fallacy of judging on the

the requirements of any tract by taking and treating individual instances as one portion of a tract gets exhausted another portion has to be taken up to come back in turn again to the old. If land is to be given for cultivation, it should be because it is wanted for cultivation and it cannot in this instance be because it is not wanted for tapping purposes.

I have the honor to be

Sir,

Your most obedient Servant

H.G. Malleson

MGCPB—20,000—24-2-05

(2) Note dated the 29th July 1904 from the Excise Dewan in Alleppey, submitting a statement showing the rental and the number of trees licensed for the toddy shops depending upon the said Kamali groves from 1898-99 to 1903-04 and urging the necessity for reserving for the purposes of toddy revenue, a gomal S. No 104 above referred to, which has been included in the new list of date groves of the Meandya Taluk

(3) Letter No 1843/57 dated the 2nd September 1904 from the above named officer stating that no date trees are reported to have been tapped in the said S. No 104 between the years 1898-99 to 1903-04 and that this circumstance

G.R.S. 27]

GENERAL AND REVENUE SECRETARIAT.

(Continuation Sheet draft form.)

alone should not be taken into consideration to group of the toddy requirements of any tract as after one portion of a tract gets exhausted another portion is usually taken up to come back in turn again to the old order thereon:—

No R 1401 11—13

Survey No 104 of the Kannali village in the Mandya Taluk, is a gomal land measuring 187 acres and 31 guntas, and is commanded by the Lookikere' tank. It is reported to contain 500 date trees fit for tapping, 200 immature ones & 3000 young plants, and has been included in the new list of date groves of the Mandya Taluk. The Deputy Commr thinks that both in the interest of Govt and of the agricultural population, it is desirable that out of this land, 167 A 1/2 G which has been sub-divided into 78 sub-numbers by the Survey Deptt, should be given out for cultivation

MGCPB—30

purposes. A sum of Rs 17,000 is expected to be realized by the sale of the land besides an annual revenue of Rs 800. The Dy Comr further reports that the Excise Comr who was consulted in the matter thinks it expedient to reserve the land as a date grove. The Revenue Comr, however supports the Deputy Comrs' views and recommends the grant of the land for cultivation purposes as it is irrigable ~~by water~~ from a reservoir constructed by Government at considerable outlay

2. Govt have given their careful consideration to the matter so as to reconcile the needs of the Excise Dept with the requirements of agriculture.

~~much anxious thought~~. A costly tank has been built by Govt. The Survey number in question is a gomal under it and has already been divided by the Survey Department into a large number of small holdings. The villagers are agreeable to the appropriation of the land for cultivation purposes. A considerable sum of

F.R.S. 27]

GENERAL AND REVENUE SECRETARIAT.

(*Continuation Sheet draft form.*)

money (viz about Rs 17000) is expected to be realized by the sale of the land. A large annual land revenue (viz about Rs 800) is also ensured. The Excise Commissioner's note of the 29th July 1904 read above, shows that his objection rests entirely upon a possible future loss of Excise revenue to Govt. This apprehension does not seem to be quite justifiable. On a consideration of all the above facts, Govt have no hesitation in directing that the land be given out for cultivation as recommended by the Revenue (& Deputy Commissioner) of the Mysore Dist.
